- DMTB13 (fits MTB175 & MTB375) \$17.85
- DMTB814 (fits MTB800 & MTB1400) \$19.20

The Better HEAVY DUTY Transport Bins
 PPE Material Bins are designed to accept a material pickup probe or suction wand for vacuum or venturi loaders. The material bins have a probe chute angled to a chamber at the lowest point in the bin for positive continuous material suction. All models are molded of LLDPE and offer an opaque view of your material level. They are a full molded container, including the base, which adds to the overall stability, making them safer to use and move about your plant.

PART NO.	CAPACITY	CUBIC FT.	PRICES EACH	
			1-5	6+
MTB110	110 LBS.	3.00	\$185.00	\$170.00
