

ANTI-SEIZE THREAD COMPOUNDS

FOR: NOZZLES, SCREW TIPS, CYLINDER BOLTS, MOLD CLAMP BOLTS, ETC., ETC.

PPE Anti-Seize Thread Compound should be used on injection nozzles, reciprocating screw tips, bolt threads, etc. Some nozzle and screw tip manufacturers void warranties if an anti-seize thread lubricant is not used when they are installed. All formulas will not bleed, harden or separate. They eliminate seizing and galling in high temperature applications.

Copper Flake

PPE COPPER FLAKE ANTI-SEIZE THREAD COMPOUND contains a special blend of ground copper flake, graphite and a no-melt petroleum base carrier. (Does not contain molydisulfide!)

These containers can be left open for extended periods of several months without affecting the consistency or the quality of these products.

IMPROVED QUALITY

Temperatures to 2000°F

Aluminum Flake

PPE ALUMINUM FLAKE ANTI-SEIZE THREAD COMPOUND contains a special blend of aluminum, graphite and a non-melting petroleum base carrier. (Does not contain molydisulfide or copper!)

These containers can be left open for extended periods of several months without affecting the consistency or the quality of these products.

DOES NOT CONTAIN COPPER!

Temperatures to 1800°F

CAUTION: Some other aluminum flake thread compounds may contain copper which is not for use with acetal, nylons or PVC.

PART NO.	CONTAINER	SIZE	QUANTITY PRICES		
			1-5	6-11	12+
FC-3	TUBE	3 oz.	\$3.95	\$3.80	\$3.65
FC-8	PLASTIC JAR	8 oz.	4.85	4.55	4.25
FC-16	PLASTIC JAR	16 oz.	7.85	7.45	7.10

PART NO.	CONTAINER	SIZE	QUANTITY PRICES		
			1-5	6-11	12+
AF-3	TUBE	3 oz.	\$4.25	\$4.10	\$3.95
AF-8	PLASTIC JAR	8 oz.	5.90	5.60	5.30
AF-16	PLASTIC JAR	16 oz.	9.15	8.75	8.35

Nickel Flake

PPE NICKEL FLAKE ANTI-SEIZE THREAD COMPOUND is a heavy duty anti-seize and lubricating paste; formulated with a balanced blend of pure nickel and graphite, homogenized into a semi-synthetic non-melting grease carrier. It does not contain any sulfur, lead, copper, halogens or clay fillers. PPE Nickel Flake Anti-Seize was designed as a preventative maintenance tool to provide complete parts protection on threaded fittings and all metal surfaces subjected to harsh environments or high temperatures.

These containers can be left open for extended periods of several months without affecting the consistency or the quality of these products.

DOES NOT CONTAIN COPPER!

Temperatures to 2600°F

Food Grade

PPE FOOD GRADE ANTI-SEIZE THREAD COMPOUND is a premium, synthetic, food grade, non-drying thread sealant and anti-seize compound; formulated with a balanced blend of PTFE and other lubricating solids, homogenized into a non-melting grease carrier.

It is NSF/U.S.D.A. H-1 Registered and Kosher approved which gives full acceptability for use in all areas where incidental food contact may occur. PPE Food Grade Thread Compound is engineered to provide a superior leak-proof seal for the life of the connection; while at the same time maintaining its anti-seize capabilities, allowing easy disassembly without thread damage.

NSF/U.S.D.A. H-1 REGISTERED

FORMULATED WITH PTFE

Temperatures to 1800°F

KOSHER APPROVED
