

PICKER CONVEYOR

WITH MULTI-FUNCTION CONTROL SYSTEM

The PPE FTP Conveyor is ideal for use where your parts picker drop off is high in the air. The picker can gently place your parts on the conveyor where they are conveyed down to operator height for manual or automated removal from the conveyor. The On/Off cycle timer helps avoid unnecessary wear and tear on the belt by not running it continuously and also prevents the Lucille Ball effect where the operator cannot keep up with the conveyor.

- FEATURES -

- Multi-Function Control System with Timed Start/Stop, Continuous Operation and Reverse Direction Switches.
- Vee-Guide Belt Tracking System.
- Heavy Extruded Aluminum Hard Coat Anodized Side Channels.
- Unique Covered Chain Drive.
- Reversible - can convey either direction.
- Better, more costly 2 ply monofilament smooth one piece white belt. FDA & USDA approved. Good to 200°F intermittent.
- Sturdy Self Centering Adjustable Height Stands.
- Permanently Lubricated Bearings & Drive Chain.
- 3" Swivel Casters.
- Overload Protected Starter.
- 12ft Grounded Power Cord.
- Adjustable angle incline.

Multi-Function Cycle control is fully adjustable, the default range setting is 1.2 to 12 seconds run time and 12 to 720 seconds stop time. There is also a continuous run switch. The timer range can be adjusted to as much as 300 hours for either on or off time. There is also a direction switch to reverse the direction of conveyance, a timer in/out run mode switch and a overload protected starter switch with pilot light.
