- **FDA compliant** in Title 21 Section 177.1520.
- **COLOR:** NATURAL (white)
- **Rotational molded.**

PPE Plastic Gaylord Containers are perfect for storage of plastic materials or parts. These containers nest when empty or can be stacked 3 high when storing materials with lids in place. Each container has 4-way entry for lift truck, or pallet jacks. The ridges in the lids are designed to prevent slipping when containers are stacked. Containers are made of light natural color material instead of black so containers won't absorb unnecessary heat from sunlight, plus scrapings won't color contaminate the contents.

**3 SIZES**
