PROTECTS HANDS FROM CUTTING AND TRIMMING ACCIDENTS

TWO TYPES

Cotton, canvas, terry and leather gloves are no match for our unique Cut-Resistant Gloves. This high technology product is constructed with stainless steel cord wrapped in polyester to produce a MAXIMUM strength glove in cut and slash protection without sacrificing the manual dexterity workers need to perform their jobs.

The Cut-Resistant Glove is a long-wearing, comfortable glove that offers a new level of protection against cutting hazards without the high cost of metal mesh. This exceptional, low cost glove is made with FDA accepted materials for food handling applications and comes with a standard-extended safety cuff to protect worker's wrists. The Cut-Resistant Glove will realistically save you countless dollars annually by reducing injuries, downtime and medical expenses.

WARNING:
This glove is cut-resistant, but not puncture or cut-proof. This is not to be used with serrated blades or moving blades. Should not be used for temperatures above 125°F.
