- FITS MEN & WOMEN

**ALL TYPES ARE DOUBLE PLY!**

NOTE:  
Keep stitched  
end toward  
your wrist.

**TYPE III in Black!**

### THREE MATERIAL TYPES:

#### TYPE I: Yellow Kevlar®

PPE Arm Protective Sleeves are made from Kevlar® Aramid Fibers. This cut and burn resistant fiber offers tremendous safety margins for molding machine operators working around hot molds, barrels, molded parts, heater bands, etc. Kevlar feels and handles like cotton but performs like steel. It is comfortable, reasonably light weight, washable and highly laceration resistant.

#### TYPE II: White 100% Cotton Yarn

We now offer a lower cost high quality 100% cotton sleeve for lighter duty applications.

#### TYPE III: Yellow or Black Kevlar® over 100% Cotton Yarn

A combination of Kevlar® outer shell with a 100% cotton lining to absorb perspiration keeping arms cool and dry all day.

All types come plain or with thumb and finger holes for extra protection for knuckles and palms plus thumb hole keeps sleeve from riding up your arm. 18" & 24" models only.
