

SPI APPROVED SAFETY SIGNS

B151 HARMONIZED, AN141 ANSI, ISO TRIANGLE

Available in Metal or Polycarbonate

Metal Signs are exceptionally durable, **etched and filled aluminum**, uniformly die cut with 4 rounded corners. These signs have adhesive backs and 4 holes for permanent riveted-on attachment. SPI approved and recommended plus they conform to ANSI Standards.

Polycarbonate Signs are **subsurface printed polycarbonate**, uniformly die cut with 4 rounded corners. These signs have adhesive backs but no holes. As with the metal signs, these are SPI approved and recommended plus they conform to ANSI Standards.

ISO Triangles are available in both **etched and filled aluminum or subsurface printed polycarbonate**. Uniformly die cut shape. Metal signs have adhesive back and 3 holes for permanent riveted-on attachment. Polycarbonate triangle signs have Adhesive back but no holes.
