- Lid Slides Off for Cleaning.

The Better HEAVY DUTY Transport Bins

PPE Material Bins are designed to accept a material pickup probe or suction wand for vacuum or venturi loaders. The material bins have a probe chute angled to a chamber at the lowest point in the bin for positive continuous material suction. All models are molded of LLDPE and offer an opaque view of your material level. They are a full molded container, including the base, which adds to the overall stability, making them safer to use and move about your plant.

Transparent Acrylic Door Kit

(includes: Acrylic Door, Hinge & Bolts)

- DMTB1 (fits MTB110) \$16.80
- DMTB3 (fits MTB300) \$17.55
