**MATERIAL BINS**

**RUGGED - DURABLE - PORTABLE - HI-CAPACITY**

**6 SIZES FROM 110 LBS. TO 1400 LBS.**

- Six Sizes Available.
- Roto-molded of opaque LLDPE.
- FDA compliant in Title 21 Section 177.1520.
- Powder coated rugged steel frame. Supports the bin at two locations around the full perimeter.
- Portable, caster mounted, 2 fixed, 2 swivel. Locking swivels on MTB800 & MTB1400.
- Non-marking casters, large diameter.
- Full overlapping lid avoids entry of foreign material. Optional lid hold down clips available.
- Lid can be bored to accept a second probe.
- Stainless Steel Bottom Slide Gate for fast material evacuation and cleaning.
- Probe hole elongated 3" x 3-3/4" & 5" x 6-3/4".
- Not stackable for safety reasons.
- MTB800 & MTB1400 have forklift channels for lifting.
- Poundage graduation marks coming.
- Dimensions: MTB175 = 24" Wide x 24" Deep x 39" High
  MTB375 = 32-1/2" Wide x 32-1/2" Deep x 48" High
  MTB800 = 48" Wide x 48" Deep x 48" High
  MTB1400 = 48" Wide x 48" Deep x 60" High

**NOT STACKABLE FOR SAFETY REASONS!**

PPE Material Bins are strong and durable. They are roto-molded of linear low density polyethylene (heavy wall) and nestled in a strong welded steel frame. All sizes have a probe opening chute angled to the lowest point in the bin to assure continuous material flow. They are opaque in color to allow viewing of the bin contents. They feature a stainless steel slide gate for fast material evacuation, plus the bins can be removed from the frame for cleaning if necessary. Material Bins come complete with lid and casters.
