

PROTECTIVE FINGER COTS

INDIVIDUAL FINGER PROTECTION AGAINST BLISTERS, ABRASIONS AND CUTS

- 100% twisted knitted cotton.
- Offers spot protection when a full glove is not necessary.
- Two types & two sizes:
 - A) Medium weight closed tip offers full protection.
 - B) Medium weight open tip adds breathability, double edge to prevent fraying.
- Avoids abrasions and minor cuts.
- Reduces blisters.
- Provides cleaner parts handling.
- Allows handling of hot molded parts.
- Protects against sharp edges and points.

SKIN PROTECTORS

CREAM TYPE - TWO FORMULAS

CONTAINS NO SILICONES

NORTH 201[®] PROTECTIVE CREAM

- Water soluble
- USDA approved
- Contains no silicone
- Won't leave fingerprints
- Invisible barrier against: sticky, staining, irritating industrial substances

This water soluble cream is a greaseless, invisible, barrier against many sticky, staining, irritating industrial substances. USDA approved for use in meat and poultry plants. Because it contains no silicones, it won't leave fingerprints and is ideal for work where adhesion and lamination are important.

NORTH 222[®] BARRIER CREAM WITH SILICONE

- Protects skin against sticky, staining, irritating industrial substances
- Wet or dry work situations
- USDA approved
- Contains silicone

In either wet or dry work situations, this cream protects skin against many sticky, staining, and irritating industrial substances. Contains silicone. USDA approved for use in meat and poultry plants.

Due to the vast variety of workplace skin antagonists, the effectiveness of these skin protectors against the specific irritants in the users work environment must be determined by the user.

WARNING: Not for use with harsh acids or alkalis, or with toxic substances.
