- Handle stays cool while you cut.
- Fast, clean cuts, leaves no bead dust.
- Heats and begins cutting in under 5 seconds.
- Special alloy blades stay sharp and straight.
- Positive locking feature secures blade.
- 16 Point temperature control thumb switch.
- Trigger On-Off switch.
- 10' Non-twisting rubber cord, 120 volt.

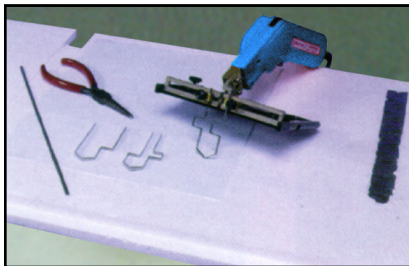

Versatile Cutting Tool

The QC Hot Knife is a state of the art, hand-held, hot cutting tool. It simplifies cutting Expanded Polystyrene (EPS), Extruded Polystyrene (XEPS), Polyethylene, Cross-Linked Polyethylene, Polypropylenes, and many other foamed plastics. Check with the foam manufacturer for safe and proper cutting procedures. The QC Hot Knife eliminates the snowshower of foam beads associated with using other cutting tools, making cuts clean and precise.

The Hot Knife also features a patented pulsing electric current that heats the blade evenly and accurately, without overheating the handle.
