COM-FIT® EARPLUGS

WITH CONNECTING CORD AND INSERT DEVICE

BY NORTH

For reusable insert-type hearing protectors, Com-fit Earplugs by North are unsurpassed in comfort, convenience and user protection. Made from silicone rubber, Com-fit earplugs feature a triple-flange design which provides multi-surface sealing over a wider-range of ear canal sizes. A Com-fit inserter device is packaged in each plastic bag to make insertion easy, assuring a better fit and improving attenuation. Com-fit Earplugs are available in three color-code sizes, with inserter device color-coded to match.

Features:

Inserter device.

Manufactured from silicone rubber with microban® anti-microbial product protection.

Triple-flange design.

Plugs, inserts and connecting cords are color coded by size. (Small-Green, Medium-Orange, Large-Blue)

Benefits:

- Significantly increases attenuation to provide greater protection.
- Reduces attenuation variability among users.
- Ease of insertion.

- Maximizes softness and comfort.
- Non-toxic, non-allergenic.
- Very durable, does not wear out.
- Unaffected by earwax and skin oils.
- Can be sterilized by boiling in water or cleaning in alcohol, without damage to the product.

- Provides multi-surface sealing over a wider range of ear canal sizes.
- Minimizes fitting problems and assures comfort.

- Easy for user to remember size.
- High visibility to ensure product is in use.
- Facilitates ease of inventory control.
