COPPER GAUZE or STAINLESS STEEL GAUZE
FOR CLEANING SCREWS AND BARRELS

- Heavy knitted copper wire .0025" x .020.
- Medium knitted copper wire .002 x .010
- Knitted stainless size .002" x .014.
- Safe, soft copper won’t scratch or mar.
- Stainless gauze is type 430.
- Knitted mesh keeps flat wire on edge for scraping.
- Tough interlocking loops won’t pull apart.
- Pure copper or stainless won’t rust or contaminate.
- Non-flammable.
- Copper available in 100 & 400 ft. rolls, 5" wide and preformed pads.
- Reversible mesh, medium grade mesh on outside, turn inside out for heavy cleaning coarse mesh.
- Stainless gauze is slightly lighter because it’s more abrasive and won’t wear down as fast as the copper gauze.

WE SHIP YOU FULL LENGTHS! NO SHORT ROLLS!

COPPER GAUZE PADS
IDEAL FOR CLEANING SMALL PARTS

- Sized for hand cleaning of any surface.
- No cutting – no measuring to size.
- Preformed with coarse side out.
- 12 or 144 pads per box.

PURE SILICONE GREASE
TWO GRADES OF consistENCy
LIGHT • HEAVY
MEETS FDA 21 CFR 175.300

DC-7 LIGHT GRADE: Better as a silicone release agent for use with plastics & rubber molding. Can also be used as a thread lubricant.

DC-111 HEAVY GRADE: Better for use as an anti-seize thread lube on cylinder bolts, screw-tips, nozzles, etc., because it’s thicker and has a higher bleed rating. Can also be used as a mold release.

AA DIE SOAP CLEANING COMPOUND
FOR CLEANING INJECTION - EXTRUSION BLOW MOLD DIES + SCREWS, BARRELS, ETC.

— For cleaning mold surfaces —
The mold or die surface to be cleaned must be at least 150°F in temperature to allow the AA Die Soap to melt onto the surface. Hold the bar of Die Soap and rub against the die surface allowing it to melt on. Apply generously to the soiled area. Allow the Die Soap Cleaner to set for 5 - 8 minutes. Now remove with copper gauze, brass scraper or brush.

— For use to purge screws & barrels —
For purging, blend two bars of AA Die Soap with five gallons of natural polyethylene. Process (purge) at 300°F for more aggressive cleaning of residue and/or carbon build up. Reduce screw RPM.
