

BRASS PLUG EXTENSIONS

Extension Plugs are compatible with all major competing mold connection systems.

In stock sizes from 1/16" thru 1/2" pipe,

- In addition to standard lengths, Extension Plugs may be ordered in any exact length required.
- Stocked in Brass
- Available to order in stainless, or plated steel.
- Special Extension Plugs to interchange with industrial connection systems are available to special order for air, hydraulic, JIC, SAE, etc.

**STAINLESS
STEEL
ALSO
AVAILABLE**

Pre-Cut threads for easy adjustment. (See below)

End threads tapered for standard NPT pipe assembly.

One piece construction for fast assembly and positive removal.

NOTE: **BSPT**
(British Standard Pipe Tapered) threads are also available. Please specify.

SEE PRICE TABLE

- CAUTION -

We checked competing extension plugs and found they have a straight undersized thread not a standard pipe thread which is a must for a positive seal. That's why ours are PATENTED.

Length Adjustments & Installation

1. When special length adjustments are required, simply cut piece to length and chamfer end.

2. Turn into standard pipe threading die to re-taper threads.

For perfect pipe threads every time, use PPE PIPE CHECK thread gauge.

3. At assembly, the tapered brass threads provide a dependable, leak proof seal. With one-piece construction, removability is always guaranteed.

Extension Series	C (Dia.)	D
250	3/4	1
251	7/8	1 1/4
252	1	1 1/2
253	1 1/8	1 1/2
350	1	1 1/4
351	1	1 1/4
352	1	1 1/2
353	1 1/8	1 1/2
354	1 1/2	1 3/4
553	1 3/8	1 5/8
554	1 1/2	1 3/4
