

HEX KEY CASCADE ASSEMBLIES

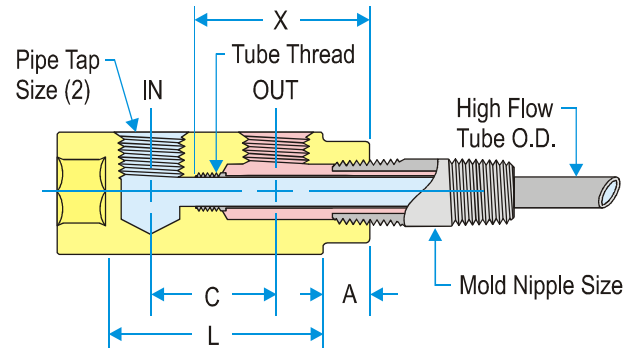

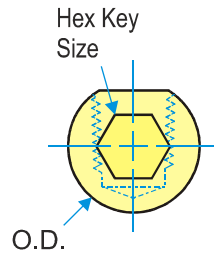

Extra long High Flow Tubes available listed on other page.

For internal installations, use Adjustable Pipe Nipples shown beyond. (This allows for easy removal of entire assembly, including pipe nipple.)

Hex Key Cascades are round, and install with a Allen wrench. They may be installed with minimal clearance or very close together where space is limited.

- High flow design provides maximum cooling rates.
- Easy to install and remove.
- Assemblies include brass head, 12" High Flow Stainless Tube, 2" long stainless steel pipe nipple.
