IN 3 MINUTES,
NOT 3 HOURS!

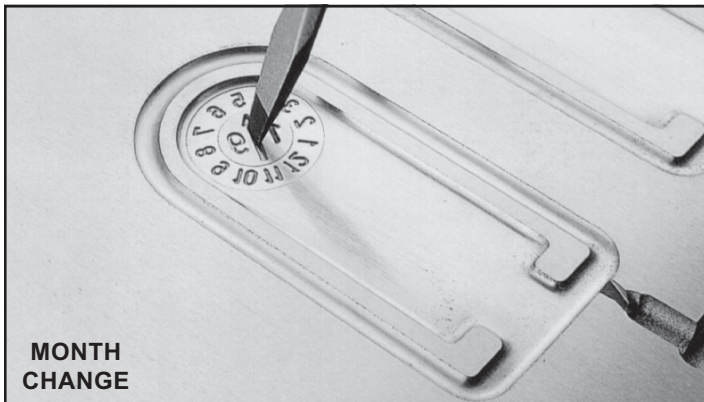

DATE INSERTS

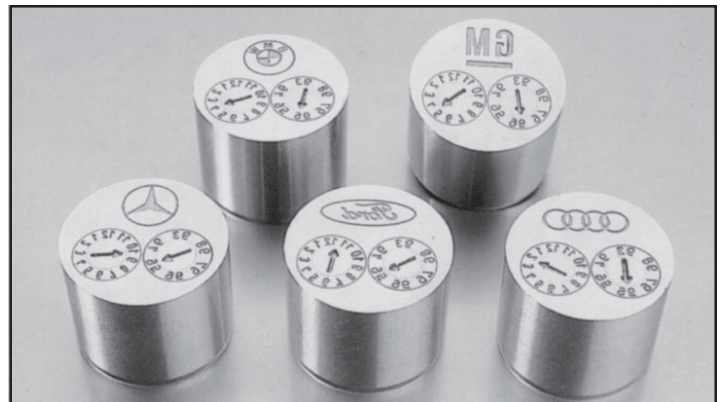

- **Easy to use:** Molds month and year directly on to molded part for easy permanent identification.
- **Fast simple month change:** Insert screwdriver into arrow slot and rotate clockwise. The insert remains flush with the surface regardless of the number of clockwise turns.
Note: To set month, turn clockwise only.
- **Fast simple year change:** Insert screwdriver into arrow slot and rotate counterclockwise until year insert backs out of its seat. Replace with a new year insert by rotating clockwise. Outer month insert remains in mold permanently.
- **Saves time:** Year change can be made without removing the mold from the press.

RECYCLING INSERTS

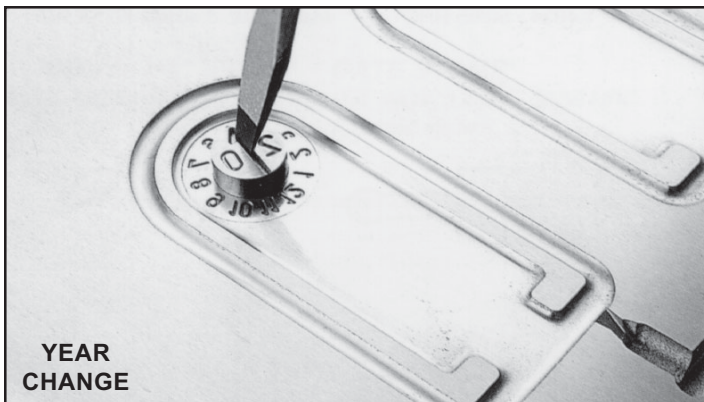

- **Easy to use:** Molds recycling symbol and material codes directly on to molded parts for easy identification.
- **Simple installation and removal:** Inserts can be easily and quickly replaced allowing many different materials to be used in a single mold, without sacrificing recycling information.
- **Versatile:** With 4 different diameters and 7 different face styles, there are a total of 28 standard models available to suit virtually all part sizes and most common molding materials.
- **Environmentally friendly:** Promotes recycling of parts through ease of material identification.
