**VERSASWITCH™ LIMIT SWITCH**

**VERIFIES CORE POSITION**

**SPECIFICATIONS**

**Electrical**
- 240VAC: 5 Amps resistive
- 4 Amps inductive
- 28 VDC

**Switching**
- SPDT

**Operating Temperature**
- 175°F max.
  *(79.4°C max.)*

**Operating Force**
- 3.5 lbs (1.605 kg)

**Pre-travel to operating point**
- 0.06” (1.5mm)

**Overtravel**
- 0.01” (.25mm)

**MATERIALS**

- **Body**
  - Anodized Aluminum/ Epoxy

- **Plunger**
  - Stainless Steel

- **Lockwasher and Nut**
  - Stainless Steel

- **Wire Leads**
  - 22 ga. stranded, 3-conductor, shielded cable, 6 ft. (1.8m) long, ends stripped and tinned

**VERSASWITCH™ LIMIT SWITCH VERIFIES CORE POSITION**

**GENERAL DESCRIPTION**

Versaswitch™ Limit Switch installs into an injection mold to prevent premature movement of your machine components. By using the Versaswitch to indicate the location of the core, the switch prevents the ejector pins from moving while the core is still in place, eliminating both core and ejector pin damage. The Versaswitch limit switch also protects your profits by limiting downtime and loss of productivity.

The Versaswitch™ Limit Switch is easily installed into a 5/8”-24 female thread. The switch actuates when 3.5 lbs of force is applied to the plunger. Actuation height is adjusted by threading the switch to the correct position in the installation. The switch is held in place via a lockwasher and hex nut. SPDT snap action switch provides a simple, positive indication of the mold or core location.

**FEATURES AND BENEFITS**

- **Prevents costly damage** to core and ejector pins.
- **Over 1 million cycle life** provides long dependable service.
- **175°F (79.4°C) standard temperature rating** allows installation into most molding applications.
- **Adjustable operating point** provides custom installation.
- **Stripped and tinned 6 ft. wire leads** make the switch ready to install without modification.
- **Included mounting hardware** installs the Versaswitch limit switch easily.

**Rated Current vs. Steel Temperature**

- Lockwasher and Nut: Stainless Steel
- Wire Leads: 22 ga. stranded, 3-conductor, shielded cable, 6 ft. (1.8m) long, ends stripped and tinned

**TYPICAL APPLICATION**

**OPTIONAL MOUNTING BRACKET**

Optional mounting bracket is available to aid installation. Threaded fastener holes facilitate mounting the switch in many positions. The bracket is made from corrosion-resistant anodized aluminum.

Part No. VB-222

Price: $25.00
