SPECIFICATIONS:

- 16oz. volume, 16oz. fill weight.
- 24oz. volume, 24oz. fill weight.
- Powerful formula (both).
- Plastic spray valve (both).
- Shelf life 1 year (both).

FORMULA:

PPE MOLD CLEANER MC-16 & MCJ-24 is a heavy duty cleaner formulated to remove stubborn mold releases, oils, greases, exude, etc., from your highly polished molds. It is strong enough to remove the above materials without rubbing or wiping. We suggest a thorough flushing from top to bottom without wiping dry. Evaporation has been slowed to allow more time to clean the mold surfaces. Do not leave an unused mold unprotected after cleaning. Always use a rust preventative. The cleaning solvents used in PPE mold cleaner can be used in the molding room.

FORMULA:

PPE HEAVY DUTY MOLD CLEANER DMC-20 is a heavy duty cleaner formulated to degrease and remove stubborn mold releases, silicones, waxes, oils, greases, exude, etc., from your highly polished molds. It is strong enough to remove the above materials without rubbing or wiping. We suggest a thorough flushing from top to bottom without wiping dry. DMC-20 can also be used to clean-up and degrease equipment and machinery. Evaporation is slightly quicker than other mold cleaners to put molds back in production faster. Do not leave an unused mold unprotected after cleaning. Always use a rust preventative. To clean warm or cold molds also try PPE Citrus Based Biodegradable Mold Cleaner MC-122.
