100%
CAST ACRYLIC
SOFTENS & CLEANS
BUT WON'T MELT
TEMPERATURE RANGE
350° to 550°F Max.
(177° to 288°C)

Standard Clear Cast Acrylic is a pellet/flake Non-Abrasive purge compound that is designed to soften but not melt- delivering a slightly tacky cleansing effect that scrubs the screw and barrel. Combined with a proprietary additive that attacks carbon build up and color contamination. No mixing or blending is required. It is formulated to purge all types of thermoplastics including nylons, polycarbonates, polyesters, thermoplastic elastomers and most engineered materials.

Super-Scrub Acrylic/Polymer is a Hybrid Non-Abrasive purge compound that is designed to soften but not melt- delivering a slightly tacky cleansing effect that scrubs the screw and barrel- along with a modified polypropylene polymer that increases the coefficient of friction causing more “drag” on the purge as it travels the screw and barrel. It is combined with a proprietary additive that attacks carbon build up and color contamination. No mixing or blending is required.

-NOTICE-

Before using PPE Clear Acrylic Purging Compounds:

- A. Not for use on Hot Runner Systems!
- B. Nozzle orifice must be 3/16” diameter or larger or nozzle must be removed.
- C. Remove any other small opening flow restrictions.

Refer to PPE SDS for safety information.

PART NO.	PURGING COMPOUND DESCRIPTIONS Packed in 50 lb. Boxes	PRICES EACH	
		1 - 2	3+
114656AP	STANDARD CLEAR ACRYLIC PURGER	\$127.00	\$118.00
114600PP	SUPER-SCRUB ACRYLIC/POLYMER PURGER	\$137.00	\$128.00

CAUTION: When purging molding machines of any kind, always use safety equipment such as, but not limited to gloves, safety glasses, face-neck shields, arm sleeves, safety vests, etc.
