

CHAIN LIFTING SLINGS

HI-TENSILE GRADE 80 ALLOY STEEL CHAIN SLINGS

PPE Grade 80 Herc-Alloy 800 chain slings and attachments are manufactured from special analysis alloy steel, engineered for a superior combination of strength, lightness and durability. These qualities give the Herc-Alloy 800 system higher working load limits and longer life than conventional alloy chain products, and make it easier to handle.

All Herc-Alloy 800 chain and attachments are black finish and/or color coded orange for easy permanent identification. The chain is embossed approximately every 10 inches with the make and grade (HA-800) appearing alternately.

Before shipment, all PPE Herc-Alloy 800 chain slings undergo a succession of demanding quality control checks. Every sling is proof tested, registered, and guaranteed for one year to be free from defects in materials and workmanship. A durable metal tag attached to the sling permanently identifies the grade, type, working load limit (at a specific angle of lift) and registration number of the sling. Hooks include a heavy duty spring safety latch.

Safety Latch Included, Spare Kits Available
