

VACUUM LOADER HOSE

FOOD GRADE MATERIAL HANDLING PVC SUCTION HOSE

**OUR HEAVY DUTY
PREMIUM QUALITY**

**FDA
Grounded Hose
is Standard on
PPE Loaders**

PPE Vacuum Hose is made from PVC compounds approved for food handling applications by the F.D.A. & U.S.D.A. It is made from high density, light-weight, inseparable PVC, semi rigid, spiral construction which produces a suction hose 50% lighter than ply wrapped hoses yet just as strong. It has a smooth bore which eliminates material build up and a corrugated outer cover for more flexibility and greater strength. It is also transparent for full visual flow of materials. This is truly a superior quality hose available at a fair price.

- Nontoxic formula conforms with FDA requirements.
- Smooth Interior prevents material blockage.
- Corrugated cover for flexibility.
- Temperature Range: -10°F to 130°F
- Clear for visual material flow, hose and helix
- Clockwise spiral (R.H.)

**SHIPPING
NOTICE**
SOME LARGER
SIZES MUST SHIP
TRUCK DUE TO SIZE,
NOT WEIGHT!

**Spiral
Clamps
Available**

To reduce dangerous static electricity we suggest you attach a vinyl coated grounding wire between your hopper loader and the metal intake tube in your material supply. Run the ground wire down to the inside of your vacuum hose. Alternatively buy our loader hose with a static wire.
