† Drawer Magnets with Neodymium-Iron-Boron bars (Rare Earth).

***Our rare earth magnets are a higher grade than the competition and therefore have a greater pull force for holding tramp metal.**

TO ORDER

When ordering determine the drawer magnet size by measuring your feed throat opening. For example, a 2" X 4" throat opening would require a Model DM-88 Drawer Magnet. Specify housing model number and specify all dimensions listed on the order blank drawing supplied.

SPARE PARTS

For Rare Earth Magnet add "RE" after Part Number.
