- Seals out moisture
- Premium Anti-Rust Film
- Easily wipes clean
- Shelf Life, 1 Year

Made in USA

FORMULA:

PPE SEALSAFE® Premium Metal Protector SMP-12 is a proprietary anti-rust product formulated to protect highly polished molds for short or long term storage. Its green color visually ensures that all surfaces have been protected. Applying several coats provides long term protection. The gel like film won't solidify and is easily removed with a soft cloth, allowing molds to be returned to service quickly. We suggest using a good mold cleaner or acid neutralizer (Spray #N-812) before applying SMP-12.

Our PPE SEALSAFE® Metal Protector is a proprietary item only available from PPE. Do not confuse this with any other product sold by others.

SPRAY CAN TRIGGER HANDLE FOR ACCURATE SPRAY CONTROL

The Original Can Gun®

- ACCURATE -
- COMFORTABLE -
- SAFE -

Made in USA

ONLY
\$1.65 ea.

Spray sold separately.

FEATURES:

- Firmly snaps-on most cans.
- Gives complete control over amount, speed and direction of your aerosol sprays.
- Comfortable trigger eliminates finger fatigue.
- Built-in safety shield: Handle insures spray direction every time. Keeps sprays from coming in contact with fingers, hands and face.
- Made from 100% recycled polypropylene.
- Easy to install. Easy to remove, but holds can firmly.
- Operators prefer trigger handle.
- Live action trigger, no springs.

IMPORTANT:

With finger off trigger, place spray can on stable surface and rotate can until spray tip opening points away from you. Then follow these 3 easy steps:

| PART NO. | QUANTITY PRICES | |
|----------|-----------------|------------|
| | 1-11 | 12+ |
| TH22 | \$1.65 ea. | \$1.55 ea. |
