HARTING Han® Industrial Connectors are suited for the harshest requirements in industrial environments. They are used in all applications requiring a safe and removable electrical connection. The field of application for HARTING connectors is in protected electrical areas; for example in control cabinets to outdoor applications.

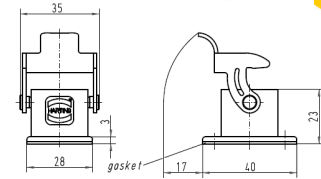

The Han® Industrial product line incorporates small connectors capable of a few amps up to large multi-way high power connections. The possible combination of connectors is large enabling sensitive signals of a few milli-volts, as used in the field of Gigabit transmissions, up to 600 Amps or 5000 Volts for high power applications.
