

**FOR USE ON  
240 OR 480  
VOLT OPERATION.**

# MINERAL INSULATED (MI) MILACRON (CINCINNATI) O.E.M. TYPE HEATER BANDS

**EXPANDABLE**

**— LONGER LASTING —**

Each half is wired for 240 volt operation. Wire in parallel for 240, or in series for 480 volt operation.

2 post each half 180° from lock-up flange.

## Features (Expandable Bands)

**New flexible, one piece design** makes installation faster on plastic processing equipment because it can be opened to the full diameter of the barrel without internal damage to the heater. The Expandable heater can be installed on a barrel without removing other band heaters already in place.

### CAUTION: START-UP

Due to moisture contained especially in new heater bands we suggest using a soft start program. This allows the moisture to dissipate gradually limiting ground fault current to a reduced value.
