MASTER Quality Construction Means Rugged Reliability

The Master® Heat Gun is the result of more than 50 years leadership in building rugged, reliable heat guns. It is engineered to deliver the temperatures and air volume required for the most demanding jobs in factories, laboratories and workshops. Every component is designed to meet the exacting demands of heavy duty industrial use. Check the quality features below, and see for yourself why the Master® Heat Gun is the overwhelming industry choice in portable, flameless heat tools.
