1/8" Collet (3mm)

SPECIFICATIONS

70,000 FREE RPM
7 CFM / 90 PSI
5/8" x 5-3/4" Long
7 OZ.

The Micro Die Grinder is perfect for mold makers, diemakers, and anywhere precision grinding takes place. The small size of these tools lends itself to precise control for light material removal, polishing and deburring. These units are designed for use with small high speed carbide burs and polishing bobs.

Rear exhaust pipes the exhaust and noise away from the operator. No contamination from dirty or oily air near the grinding tip.

The extremely smooth, quiet, nearly vibration free power separates this grinder from "run of the mill" pencil grinders. You can really feel the difference.

PART NO.	DESCRIPTION	PRICE
GP-0573-1	Micro Die Grinder with Rear Exhaust	\$127.30

CAUTION

Always wear safety glasses while using any tool. If necessary wear ear protection to avoid noise exposure. If vibration exists wear vibration dampening gloves.

MICRO DIE GRINDER ECONOMY MODEL

Lightweight and powerful micro design delivers 54,000 RPM in a slim compact, comfortable and durable aluminum body. Ideal for detail work with its infinitely adjustable variable speed throttle, vibration-free ball bearing construction and easy twist on/off switch.
