NYLON RECOIL AIR HOSE

360° SWIVEL FITTING AT ONE END

Gives extra protection along with spring guards against hose end damage.
Facilitates hookup and disconnection and provides free tool action by eliminating hose twisting.

SPECIFICATIONS

- Less than 1% moisture absorption. (nylon 12)
- Resistant to most chemicals, including alkalies, hydrocarbons, ketones and esters.
- Abrasion resistant.
- 260 PSI working pressure.
- Temperature Range: -14° to +170°F.
- Color may vary.
- Suggested working length for most applications, is 80% for vertical use and 50% for horizontal use (such as cranes, monorails, trolleys, etc.).

TIGHT COIL CONFIGURATION

The smaller diameter eliminates unhandy bulkiness, prevents end-looping and increases retractability. Keeps hose out of the way.

Brass Products:
WARNING: Cancer and reproductive harm. For more information go to www.p65warnings.ca.gov.
