

WIRE CONNECTORS

ISO-9001

MANUFACTURED IN A QUALITY SYSTEM CERTIFIED FACILITY.

TEMP
221°F
105°C

PPE Wire Connector Shells are made from high dielectric, smooth polypropylene plastic to eliminate porosity and surface cracking and resist practically all chemical action - unaffected by gasoline, oils, diluted acids and alkaline solutions. Heat resistant to 105°C (221°F).

- Durable, extra rugged shells are high-dielectric plastic.
- Tight no-slip spring. Easy starts, threads wire fast, no slips.
- Deep skirt. Extra protection. Serves to prevent flashover or exposure of bare wires.
- Wide passage makes wire insertion easier.
- Buttress threads. Screws into insulation to prevent electrical flash-over.
- Color coded for fast identification of sizes.
- Fluted shells for firm finger grip and accepts twist tool on larger sizes.
