

CHAIN LIFTING SLINGS

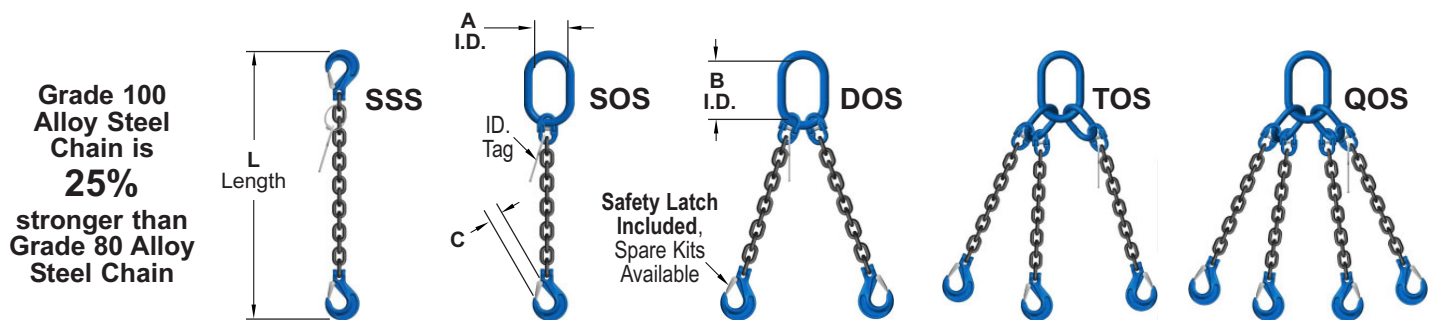

HI-TENSILE GRADE 100 ALLOY STEEL CHAIN SLINGS

- Grade 100 Alloy Steel.
- Meets ASME B30.9 and OSHA 1910.184.
- Grade 100 Alloy is 25% stronger than Grade 80.
- Finish: Black rust preventative coating.
- Proof Tested at 2 times the Working Load Limit.
- Identification tag on each chain sling.

PPE Grade 100 Herc-Alloy 1000 Chain Slings and attachments are manufactured from special analysis alloy steel, engineered for a superior combination of strength, lightness and durability. These qualities give the Herc-Alloy 1000 system higher working load limits and longer life than conventional alloy chain products, and make it easier to handle.

All Herc-Alloy 1000 chain and attachments are black finish and/or color coded orange for easy permanent identification. The chain is embossed approximately every 10 inches with the make and grade (HA-1000) appearing alternately.

Before shipment, all PPE Herc-Alloy 1000 Chain Slings undergo a succession of demanding quality control checks. Every sling is proof tested, registered, and guaranteed for one year to be free from defects in materials and workmanship. A durable metal tag attached to the sling permanently identifies the grade, type, working load limit (at a specific angle of lift) and registration number of the sling. Hooks include a heavy duty spring safety latch.
