- 2 FIBERGLASS FABRIC EXTERIOR LAYERS
- FLEXIBLE CERAMIC INTERIOR LAYER
- THICKNESS 3.0mm, 1/8”

4 SIZES AVAILABLE

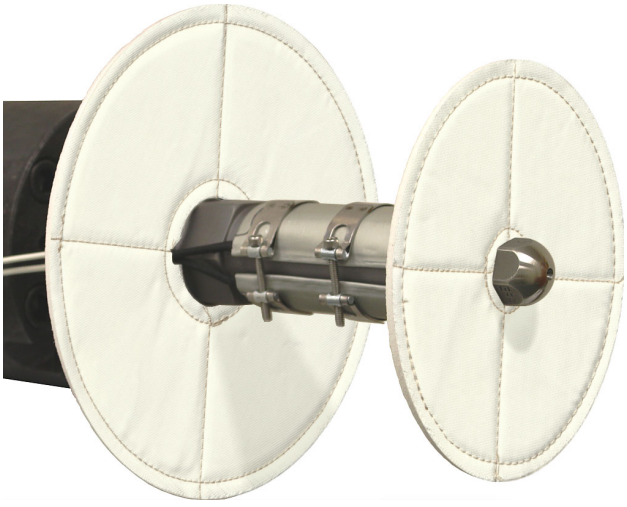

PPE Drool Blockers are high quality super hi-temperature fiber discs designed to block hot drooling plastics from oozing back onto your nozzle or barrel heater bands. Most nozzle heater band failures are caused by hot drooling plastics attacking your wiring or penetrating the heater sheath shorting them out. Our high quality hi-temp and low prices allow you to dispose contaminated discs economically. That’s good for the budget!

PROTECTS YOUR HEATERS

TYPICAL APPLICATION

The 6” Drool Blocker Disc with 3/4” hole (DS06075) shown used between the nozzle tip and the nozzle body .

ALTERNATE APPLICATION

The DS06075 as shown above, but with the addition of the 8” Drool Blocker Disc with 1-3/4” hole (DS08134) used between the nozzle body and the end cap.

PUT ONE ON EVERY MACHINE!

DROOL BLOCKER DISCS
